

***Your front row seat***  
for a Summer of sport

# A SUMMER OF SPORT...

The countdown has begun to what promises to be one of the most exciting Summers for sports-lovers...ever! The season kicks-off soon and with so many events throughout the coming months, there is something for everyone to get excited about.

With so much going on... there is no need to spend the summer on the sofa; why not join in the fun? Active motion gaming on your Xbox Kinect, Wii or PlayStation Move using a projector brings life-sized action-packed sports right into your living room, now in jaw-dropping 3D!

Making even the largest flat-panel TVs seem tiny, the huge, greater than 100" images created by a projector immerse you in the action creating the most compelling viewing experience available anywhere.

Optoma has taken all the hassle out of choosing the perfect projector; so you can relax and enjoy every moment, without missing a thing.

50" TV

100" Projection screen

# THE *Optoma* ADVANTAGE

## SIMPLE CONVENIENCE

Setting up your live sports experience is now easier than ever...

With the inclusion of HDMI outputs on most freeview, satellite & cable receivers, DVD players... and even laptops; you can send both pictures and sound down a single cable, so that you can enjoy your favourite sports instantly using your projector's Integrated speakers.

## FRIENDLY ADVICE

For more information and a simple friendly guide on which cables you'll need for your perfect setup, please visit [www.optoma.co.uk](http://www.optoma.co.uk), select the projector you are interested in and click on the "connections" tab.

If you'd prefer to use your existing hi-fi or audio system, the numerous video inputs on Optoma projectors give you the flexibility to create awe-inspiring big-screen entertainment, whatever the circumstances.

## Simple and Easy

Easy and quick to set up, these projectors will be up and running in seconds, with plenty of brightness for both day & night time viewing, giving you hassle free enjoyment, straight out of the box.

Being small and lightweight means you can take them anywhere; make sure to watch a few matches round a mate's house, so the drinks aren't always on you...

### DS329

- Big picture – up to 300" Diagonal
- Bright detailed images
- Quick setup - Integrated speakers

## All-in-one

Some of us just don't have the space for a projector to be permanently set up – that is why all these models are quick to set up & have integrated speakers; while HDMI connectivity means there is only one cable to connect for both sound & video.

If you really want to create that big-screen experience, models with a special "short-throw" lens can give you a 120" image from less than 2m away – Ideal for shadow-free gameplay on your Xbox, Wii or PlayStation3, even in the smallest of rooms...now in awesome stereoscopic 3D!

### HD67N

- Amazing HD Ready detail
- Day & Night viewing modes
- All-in-one solution - Integrated speaker
- Highly portable – stylish carry case

### GT750-XL

- Immerse yourself in HD 3D Entertainment - 3D Glasses included
- Huge Images in small spaces – Ideal for active-motion gaming
- Exceptionally bright and detailed image
- All-in-one portable solution – powerful 10W speakers

## Full HD

Hook up an Optoma full HD projector to your HD, Satellite, Cable or TV box to enjoy the greatest big screen live sports experience available anywhere – right in your own home!

Easy and quick to set up, the projectors will be up and running in seconds, with plenty of brightness for both day & night time viewing.

### HD23

- Fantastic Full HD 1080p image quality
- Daytime / Lights-on viewing modes
- Huge image sizes – 4m Home Cinema screen!

## 3D Full HD

Couldn't get tickets for the big match? - With more content broadcast in 3D every season, you'll never miss the greatest moments in sporting history and you can re-live them time after time in stunning high definition 3D as though you were actually there!

Sometimes only the best will do – Designed for full integration into your home cinema setup, the uncompressed HDMI 1.4a connections give you the highest quality 3D pictures available.

### HD33

- Awesome 3D entertainment – 2x HDMI 1.4a Inputs
- Ultimate Full HD Image quality
- Enhanced ultra-smooth motion
- Exquisite detail and vibrant colours

## Extra Convenience - no cables

Stream Full HD 1080p 3D to your projector or TV wirelessly; eliminate the hassle and extra cost of installing long cables; effortlessly connect your Blu-ray™ player, TV box, games console, Laptop or A/V amp instantly.

Perfectly combining convenience with simplicity, the WHD100 wireless HDMI system makes setting up your perfect big-screen experience easier than ever.

### WHD100

- 3D, Full HD wireless video & Audio
- Compatible with all Optoma HDMI models
- Easy setup with auto detection - Plug & Play
